## INTERNATIONAL TECHNICAL CERTIFICATE in OIL and GAS OPERATIONAL SAFETY - Level 4

### Course Overview:

The NEBOSH International Technical Certificate in Oil and Gas Operational Safety is designed specifically for those with safety responsibilities in the oil and gas industry. It focuses on international standards and management systems, highlighting the importance of process safety management in the oil and gas industry, enabling students to effectively discharge workplace safety responsibilities both onshore and offshore.

This course is internationally accredited by National Examination Board in Occupational Safety and Health in United Kingdom and approved by Ministry of Labor (Kingdom of Bahrain).

### Course Outline:

- Element 1: Health, safety and environmental management in context
- Element 2: Hydrocarbon process safety 1
- Element 3: Hydrocarbon process safety 2
- Element 4: Fire protection and emergency response
- Element 5: Logistics and transport operations

### Entry requirements:

The achievement of the NEBOSH International General Certificate in Occupational Health and Safety (IGC) or equivalent prior to undertaking this course is highly recommended.

### Target Audience

Individuals who have the responsibility for ensuring safety as part of their day-to-day duties, including managers, supervisors, employee representatives and newly appointed HSE advisers with oil and gas industry work experience.

### Course Assessment

Unit IOG1 is a taught unit, assessed by a two-hour written examination and the pass standard for the unit is %45.

### Course Duration

40 Hours
