PMI CAPM ELIGIBILITY REQUIREMENTS

To be eligible for the PMI-ACP certification, candidates must meet the following criteria:

- General Project Experience: 2,000 hours of general project experience working on teams. A current PMP® or PgMP® certification will satisfy this requirement but is not required to apply.
- Agile Project Experience: 1,500 hours of working on agile project teams or with agile methodologies. These hours are in addition to the 2,000 hours of general project experience.
- Training in Agile Practices: 21 contact hours of training in agile practices.

COURSE OVERVIEW

The PMI Agile Certified Practitioner (PMI-ACP) certification is offered by the Project Management Institute (PMI) and is designed for project managers and team members who work in agile environments. This certification validates an individual's understanding of agile principles, practices, and tools across various agile methodologies.

The PMI-ACP certification is a great way to demonstrate your commitment to agile principles and practices. It's ideal for project managers, team members, or anyone involved in agile projects looking to validate their expertise and boost their career in agile project management.

COURSE AUDIENCE

- The PMI-ACP® certification is intended for professionals who work in agile teams or who manage projects that incorporate agile practices.
- It is suitable for project managers, team leads, scrum masters, agile coaches, product owners, and anyone who works with or is part of an agile project environment.
- It is also beneficial for those looking to formalize their agile experience with a recognized certification or transition into agile project management.

COURSE BENEFITS

- **Demonstrates Agile Knowledge**
  Validates your ability to work in agile environments and your understanding of agile principles and practices.
- **Broad Agile Experience**
  Covers multiple agile methodologies, not just one framework.
- **Career Opportunities**
  Opens up job opportunities in organizations that are moving towards or are already using agile practices.
- **Enhanced Skills**
  Improves your ability to lead agile teams and manage projects in agile environments.

COURSE CONTENT

The PMI-ACP certification covers agile methodologies, techniques, and tools. It focuses on the following key areas:

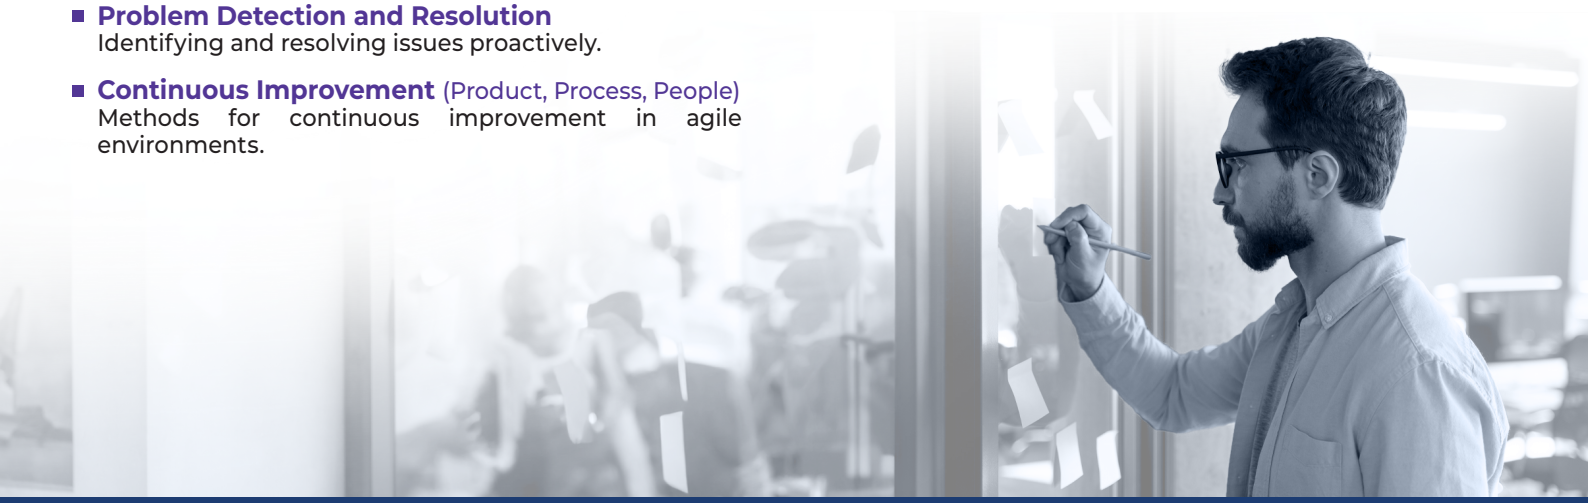

- **Agile Principles and Mindset**
  Understanding the agile manifesto, principles, and mindset.
- **Value-Driven Delivery**
  Techniques for delivering valuable products to customers.
- **Stakeholder Engagement**
  Methods for engaging and collaborating with stakeholders.
- **Team Performance**
  Building high-performance teams and leading them effectively.
- **Adaptive Planning**
  Techniques for estimating, planning, and adapting plans based on changing conditions.
- **Problem Detection and Resolution**
  Identifying and resolving issues proactively.
- **Continuous Improvement** (Product, Process, People)
  Methods for continuous improvement in agile environments.

PMI -ACP EXAM FORMAT:

- The PMI-ACP exam consists of 120 multiple-choice questions.
- The exam duration is 3 hours.
- The questions are based on a mix of various agile methodologies, including Scrum, Kanban, Lean, Extreme Programming (XP), and others.

MAINTAINING THE PMI-ACP CERTIFICATION:

- PMI-ACP certification holders need to earn 30 Professional Development Units (PDUs) in agile topics every three years to maintain their certification.
